

# IDEATION PHASE

## EMPATHIZE & DISCOVER

Date:	19 October 2023
Team ID:	
Project Name:	RAINFALL PREDICTION USING ML
Maximum Marks:	4 Marks

### Empathy Map Canvas:

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviors and attitudes.

It is a useful tool to help teams better understand their users.

Creating an effective solution requires understanding the true problem and the person who is experiencing it. The exercise of creating the map helps participants consider things from the user's perspective along with his or her goals and challenges.

### Empathy Map

### Topic: Machine Learning Approach For Predicting The Rainfall
